Instant online Activation!**

In an emergency, Doctors and EMTs make crucial decisions about your medical treatment. These decisions are based on the best information available. Without reliable, detailed information, critical treatment may be delayed, and this could mean the difference between life and death. With your **Emergency Contact Code** and **EM password** shown on your **EMI Card**, there are no delays. Medical Personnel have immediate access to your online listed contact(s) and emergency medical information.

Go to [www.EmergencyContactCode.com](http://www.EmergencyContactCode.com) today to register and activate your EMI Card!
